

Muhammet Veysi Kahraman

JR. AI ENGINEER

CONTACT

Email: muhammetveysi04@gmail.com

Address: Istanbul/Turkey

SUMMARY

Final-year Mathematics student with hands-on project and internship experience in data science, machine learning, and artificial intelligence. Experienced in working on real-world problems involving time series forecasting, Transformer-based NLP, computer vision, and AI agent development. Proficient in building end-to-end modeling and data processing pipelines using Python and industry-standard ML/DL libraries, with strong analytical skills and an effective team-oriented mindset.

PROFESSIONAL EXPERIENCE

AI Engineer Internship | September – January 2026

inosens

- Built time series forecasting models (Prophet, ARIMA, SARIMA) on production datasets.
- Analyzed wearable sensor signals using NeuroKit, performing data cleaning and feature extraction.
- Developed machine learning models to predict patient scores in physiotherapy games.
- Trained video-based models with PyTorch and MediaPipe to evaluate exercise correctness.

AI Engineer Internship | April – May 2025

Imona Technologies Co.

- Developed end-to-end social media automation workflows using Make.com, automating recurring content publishing processes across multiple platforms with AI agent-based integrations.

AI Engineer Volunteer | 2023 – 2025

BAIBU Venator IHA

- Developed a fire detection model using deep learning and computer vision techniques, and performed integration and optimization to enable real-time inference on Raspberry Pi, gaining hands-on experience with OpenCV, TensorFlow, and CNN architectures.

Competitions

BTK Datathon 2024 ~ Machine Learning

Zindi / Amini Cocoa Contamination Challenge ~ Computer Vision

SKILLS

- Programming & Data: Python, Pandas, NumPy, Polars
- Machine Learning & Deep Learning: Scikit-learn, TensorFlow, PyTorch
- Time Series Analysis: ARIMA, SARIMA, Prophet, LSTM, XGBoost
- Natural Language Processing: Transformers , LLMs, Fine-Tuning, RAG
- Computer Vision: OpenCV, MediaPipe, YOLO
- AI Systems: AI Agents
- Data Analysis & Statistics: Statistical Analysis, Feature Engineering
- Tools & Frameworks

EDUCATION

Bolu Abant Izzet Baysal University | 2021

B. Sc. Mathematic (English Prg.)

- GPA: 3.09

LANGUAGES

Turkish
English B1
Spanish Fundamental
German Fundamental
French Fundamental
